NOTICE

UPCOMING NEIGHBORHOOD MEETINGS FOR THE CORTE MADERA CREEK FLOOD CONTROL PROJECT

PROJECT DESCRIPTION
The purpose of the project is to manage flood risk from Corte Madera Creek extending from the Sir Francis Drake Boulevard Bridge in the Town of Ross downstream to the end of the concrete channel in Kentfield.

PROJECT UPDATE
Currently, a suite of alternative plans for reducing risk of flooding in the project area have been formulated, evaluated, and screened down to a list of viable alternatives. These alternatives were presented at the Public Meeting held at the Ross School on August 22, 2016. The feasibility study team is currently modifying the hydraulic computer model so that the alternatives can be fully analyzed. Following this analysis, the project team will estimate project costs and benefits of each alternative.

NEXT STEPS
The Marin County Flood Control and Water Conservation District (District) and the U.S. Army Corps of Engineers, San Francisco District (USACE) are planning a series of neighborhood meetings to review and discuss alternatives of the ongoing Corte Madera Creek Flood Control Project. It is anticipated that these meetings will begin in December of 2016 once the analysis described above is completed. The neighborhood groups will be identified and homeowners in these groups will be contacted by mail with information regarding the meeting place and time.

Similar meetings are being held with other key stakeholders, including the Town of Ross, College of Marin and Kentfield School District.

Please direct questions about the project to Hugh Davis at hdavis@marincounty.org or (415) 473-4232 at the Marin County Department of Public Works or to Kelly Janes at (415) 503-6856 at the U.S. Army Corps of Engineers.
